

I just published a video for Premium Members called ***Beyond Family Tree Maker: How to Take Control of Preserving Your Family Tree***. This video is the result of hours of research and preparation and I believe it's one of the most important I've done to date. In it I share insight into the genealogy industry, and my philosophy and personal plan for how I manage my priceless genealogical data. The more I thought about it, the more I think everyone needs to see this video. So I am making this Premium video available for **free through April 15, 2016**. (click the image below or [here](#) to watch this video while it's free, and be sure to download the free [handout](#).)

## Beyond Family Tree Maker

*How to  
**take control**  
of preserving  
your family tree  
information*
